1. Applicant's response filed 7/5/05 has been considered.
2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stanfield US 2002/0069093A1 in view of Vivadelli et al US 2004/0267623A1. Stanfield discloses an electronic reservation referral system and method that provides information about a rental space ([0022] and throughout) that allows a user to select and view the information via the Internet [0039] through such means as an Internet booking service. The user can select information about a hotel, hotel services, restaurant, historic site, and other areas of attraction, and fuel providers (i.e. propane) [0026] [0102]. Confirmation of reservation [0091] and on line check-in and check-out [0097] is provided. It is disclosed that the user can print an invoice of a transaction [0088]. Stanfield further discloses that a user has access to see a presentation of a facility [0095] but does not specifically disclose providing a map or picture of either the rental space or the surrounding scenery. However, Official Notice that presenting pictures of facilities and maps to facilities are old and well known. It would have been obvious to a person of ordinary skill in the art at the time of the invention to show a user of the system of Stanfield a picture of the facility so that the user may see aesthetic components of the facility, thus allowing the facility the opportunity to "impress" a

patron. It would have been obvious to a person of ordinary skill in the art at the time of the invention to include a map of the facility's location in order to show the patron how to get to the facility. (It is noted that applicant has not traversed the examiner's holding of Official Notice and thus that presenting pictures of facilities and maps to facilities is now considered admitted prior art.) Stanfield does not disclose the kiosk as now claimed.

Vivadelli discloses a kiosk for making reservations [0133].

It would have been obvious to a person of ordinary skill in the art at the time of the invention to include a kiosk as taught by Vivadelli in the system of Stanfield. This would allow for a customer to self check-in at a remote location, thus increasing the convenience of the system.

4. Applicant's arguments with respect to the claims listed above have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2876

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
